SUMMARY

Student and frontend developer who builds clean, accessible websites with React, Next.js and Tailwind CSS. Works with AI coding agents like Claude Code, but not on autopilot: writes the brief and design rules first, breaks work into small tickets, and reviews every change before it ships. Open to junior frontend roles and freelance projects.

SKILLS

HTML/CSS · JavaScript · React · Next.js · Tailwind CSS · Claude Code

PROJECTS

Personal portfolio (in progress)

A static Next.js portfolio built on a token-based design system, planned as a spec and small tickets, and built with Claude Code one reviewed diff at a time. Tested with Vitest; linted, tested and built on every push with GitHub Actions; deployed to GitHub Pages.
